### 7 price bands: the perfect solution for every budget

With 36 varied kitchen designs to choose from, you could be spoilt for choice. So we've made selection simpler by dividing our range into seven distinct price bands.

Band one is our entry level collection: simple, practical slab door designs, but still with that unmistakably solid Magnet Trade craftsmanship – and our unique 15-year guarantee.

At the luxury end of the spectrum, Band seven is where you'll find our truly premium kitchens, ranging from high end contemporary designs to the traditional hand painted look – all with lots of extra thoughtful touches.

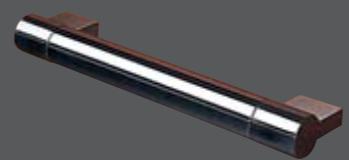

TAKE THE NATURAL WARMTH AND CHARACTER OF OAK.  
Add Strata's sharp clean lines. Together they add up to a  
stylish, timeless and highly versatile kitchen. The mellow  
timber tones are enhanced here by matt laminate worktops  
in a light, neutral shade and the elegant bar handles provide  
a contemporary twist.

## Strata Oak

### BEAUTIFULLY HANDLED

Magnet Trade's chunky bar handles provide  
a stylish alternative that's just as  
perfect with Strata's simple slab styling.

## Strata Gloss White

PURE PRISTINE WHITE WITH A SOFT SHEEN finish gives the simple slab design of Strata its ultimate expression. Oversized strap handles and a tambour storage unit show how easily a distinctive look can be achieved with our wealth of accessories.

## Strata Maple

THE GOLDEN, HONEYED GLOW OF MAPLE is perfect for maximising light in a kitchen, adding sunny warmth to Strata's uncluttered appeal. Strikingly contemporary concrete effect worktops, stylish Silica glass doors and drawers and sleek bar handles complete the look.

STRATA WALNUT HAS A TRULY DISTINCTIVE GRAIN WITH RICH CONTRAST BETWEEN ITS LIGHTER CREAMY HUES AND DEEP, DARK BROWNS. Its timber finish instantly adds a clean and stylish look, whilst retaining all the practicalities of the Strata range. Our versatile Strata range can be mixed and matched. Below the Strata Walnut units and wine rack feature Strata Gloss White door fronts, for a unique and contemporary look.

## Strata Walnut

SIGNATURE STYLE...

Complete this kitchen with a Roma chrome tap.

## Strata Cream

THIS NEWLY AVAILABLE, WARM SHADE OF CREAM beautifully complements the uncomplicated appeal of Strata, proving that even our most affordable designs have powerful and versatile appeal. Strong clean lines, accentuated by the horizontal bar handles, create a versatile contemporary look that works perfectly here with contrasting black worktops, smart mid-brown walls and practical laminate flooring.

## Melrose

MINIMALIST MAGNIFICENCE sums up the chic appeal of Melrose. The crisp white finish simply oozes class, especially when set against starkly contrasting black worktops and accessorised with sleek bar handles and contemporary features such as illuminated shelving.

THE DEPTH AND DISTINCTIVE GRAIN OF BEECH gives Aurora a timeless appeal that can be at home in any setting. Enhanced here by dark worktops, the overall effect perfectly balances the welcoming warmth of timber with clean-cut contemporary design.

Aurora

### FROSTY WELCOME

Silica frontals in frosted glass provide the perfect complement to Aurora's warmth and opulence.

DEEP PAN DRAWERS AND GLAZED TOP BOXES IN MELLOW OAK give Boston an immediate air of style and distinction, further enhanced by the stainless steel look handles which follow the contemporary contours of the gullwing fascias.

Boston

SIGNATURE STYLE...

Complete this kitchen with an Oceanus chrome tap.

## Milton

SLEEK, MODERN LINES give Milton its cool, contemporary look, tempered by the warm, welcoming feel of cheerful cherry.

## Denby

UNDERSTATED ELEGANCE meets total practicality in this gorgeous oak effect family kitchen. Built to take modern living in its stride, Denby blends Shaker styling with subtle graining to create a kitchen that combines luxurious looks with down-to-earth practicality.

## Maldon

WITH COOL BIRCH EFFECT frontals and beautifully balanced rails and stiles, Maldon gives classic Shaker style a refreshing update.

## Chilton

THE CHILTON RANGE has the ability to appear as modern or as classic as you like, depending on your choice of accessories and appliances. Easy on the eye, it's our latest re-invention of the Shaker heritage, finished in mellow cream and boasting distinctive wider rails than stiles.

CREATED IN A WARM AND PRACTICAL SHADE OF CREAM, Henley's elegant design features Shaker style tongue and groove centre panels. It's a look that echoes traditional styles but with a contemporary twist, complemented here by slim three-piece handles.

#### ALTERNATIVELY...

For a more traditional feel, team Henley up with the timeless appeal of knobs in warm, mellow walnut.

THE EPITOME OF CITY LIVING SOPHISTICATION.

Cutting-edge design meets classy continental kitchen styling. The high gloss cream of Juno contrasts stunningly with sultry Cebra. Sleek Strass Noir worktops and sloping square drop handles add the finishing touches to this supremely fashionable kitchen.

Juno  
FEATURING CEBRA

#### EXCITING LIGHTING

Cunningly positioned spotlights and thoughtful details such as an integrated wine rack add an extra touch of individuality.

## Aspen

MINIMALIST, CRISP AND CONTEMPORARY, the gleaming white gloss of Aspen is paired here with the equally pure black of Nero doors for a look to enhance any smart city dwelling. The ultra modern lines are further enhanced by big, bold steel effect bar handles.

## Ottawa

THE SIMPLICITY OF SHAKER PANELLING gets a contemporary twist with a gleaming gloss finish in pure white. Perfect with contrasting dark laminate worktops and matt chrome rectangular door and drawer knobs.

## Hamilton

THE OUTSTANDING BEAUTY OF SOLID AND VENEERED OAK is allowed to speak for itself in this simple Shaker-inspired design with framed door panels. Elegant satin nickel handles enhance the radiant honeyed oak, for a design that can work beautifully in traditional or contemporary settings.

## Havana

THIS ELEGANT TEAK EFFECT KITCHEN is the latest innovation in frontal design, with a modern stepped effect panel adding a contemporary twist. Havana is shown with stylish chunky end panels and doorline doors featuring long sleek steel bar handles.

## Davenport

DEEP, RICH HUES OF WALNUT give Davenport its timelessly traditional appeal, enhanced by sophisticated raised and fielded panels and thicker end panels for a real feel of solidity. Available in both doorline and drawerline formats with thoroughly modern features such as deep pan drawers and glazed top boxes.

## Nero

FEATURING CEBRA

STYLISH, SLEEK AND CHIC, NERO'S HIGH GLOSS, almost mirror-like black finish is the ultimate expression of cutting-edge contemporary kitchen design. Here the dark timber tones of Cebra provide contrast, and polished chrome handles complete the look.

## Arisa Oak

WITH ITS DRAMATIC OAK EFFECT SLABS AND RAISED CENTRE PANELS, Arisa Oak makes a confident style statement: a distinctive combination of progressive design and understated elegance. The breadth of the Magnet Trade range makes it easy to add thoughtful touches such as tambour units.

## Urban Café

ANOTHER VARIATION ON THE UP-TO-THE-MINUTE HIGH GLOSS FINISH, this time in an eye-opening shade of light coffee, so rich and evocative you can almost smell the roasting beans. Beautiful on its own, or combined with cream to create maximum drama and impact.

OFFERING THE HIGH-END APPEAL OF A HAND-PAINTED KITCHEN, this sophisticated design exudes traditional character and charm. Finished in a warm, matt shade of cream with raised and fielded panels for added depth, there's a choice of gently contoured end panels or classically inspired pilasters to enhance the traditional effect.

Camberley Cream

#### DEEP THINKING

The depth and traditional look of a Belfast sink is a stylish and practical extra touch.

HANDSOME OAK FRAMED DOORS and deep drawers bring strength and distinction to Kendal's clean, uncluttered lines. Individual touches such as elegant pilasters and curved end panels can be added to create a truly individual contemporary kitchen.

### SOLID TIMBER

Available in solid oak and beech, a good choice if you want to add a feeling of warmth to your kitchen.

ELEGANT IS THE WORD FOR PRINCETON'S FRAMED STYLING in a delicious shade of cream. The choice of traditional or contemporary pilasters brings an extra dimension of versatility to a kitchen that's a model of taste and sophistication.

## Princeton

### SURPRISE IN STORE

This space saving swing-out twin corner unit is just one of the smart storage solutions any Magnet Trade kitchen can have up its sleeve.

THE EPITOME OF SHAKER STYLE, this perfectly proportioned design with subtly bevelled edges is perennially popular. Versatile too: a modern range cooker blends beautifully with the timeless styling.

## Shaker Cream

### SOLID PERFORMER

Worktops in solid timber complete the classic look.

## Appleby

A PRISTINE PAINTED FINISH AND TONGUE AND GROOVE END PANELS bring a luxury feel to Appleby's simple Shaker styling. Accentuate the traditional appeal with pilasters and a stand-alone dresser, or add a modern twist with pewter handles and contemporary worktops and accessories.

## Crème Lineaire

MINIMALIST CHIC WITH NO VISIBLE HANDLES GIVES CRÈME LINEAIRE'S high gloss finish in soft cream real cutting edge appeal. Wall and floor units with sensual curves are an exciting new storage solution and make the kitchen even more distinctive.

LINEAIRE IN PRISTINE HIGH GLOSS WHITE is sleek, streamlined kitchen design at its purest. Curved units and sparkly blue quartz stone worktops add to the futuristic feel.

## White Lineaire

## Work those worktops

JUST A TASTER FOR THE WEALTH OF WORKTOPS AVAILABLE WITH MAGNET TRADE KITCHENS. There's everything from high definition laminates and contemporary square edged and matt finished surfaces to solid timber. We also offer the sheer luxury of authentic 30mm thick granite, and a choice of six colours in beautiful 30mm quartz. Both are hand polished to a high gloss finish and feature superb attention to detail, such as smoothed undersides of overhanging surfaces. To prevent breakage, our granite worktops come complete with reinforcement bars for sink and hob cut-outs (quartz needs no reinforcement) and we offer 5-day turnaround from template to fitting on both quartz and granite.
